Event Excellence

COMMENCEMENT 2024

Why Us?

We have extensive experience in providing outdoor event equipment rentals as well as other products and custom services. Stages, chair rentals, public address systems, audience risers, and custom drapery backdrops are just a few of our offerings. We have a long-standing history of shaping the events that matter to you most:

- Graduations/Commencements
- Post Graduation Celebrations
- Alumni Events
- School Fundraisers
- Theater Productions

We understand that every school is different. We also understand that not every school has the perfect conditions to host a large outdoor event. This is why we've tailored a custom approach that meets the exact needs of your institution. We work with you to identify your school's specific needs for your graduation and recommend the best equipment to make sure the graduation ceremonies go smoothly for everyone. It's also incredibly important that your event meets or exceeds local building codes, ADA requirements, fire codes, and is fully compliant with all health/safety regulations. Our goal is to make sure your event is in full compliance with every requirement at all times. We want you to focus on the graduates and not the technical details. We are dedicated to our clients and ensuring every school event complies with all city regulations and provides safe events for their students!

Common Questions

What to keep in mind when planning your school's graduation ceremony? There are several questions to ask that will determine some of the basic needs for your school's commencement ceremony.

- *Can we use our school's athletic field?*
- *Can we use a public park for our graduation?*
- *How many graduates will we have?*
- *How many guests are expected to attend?*
- *Should we live stream our graduation?*
- *How many people will be on stage?*
- *Will you require seating on the stage for faculty and administrators?*
- *What's the best sound, lighting, and visual equipment to use?*

Contact our team today to schedule a graduation stage rental consult. We know there is still a lot of uncertainty around upcoming events and our team is there to make the planning process seamless.
